Dear Mr Kuzminskas

Product verified – Yurtos Sapropel tablets

Thank you for sending in the product specification and supporting documents. I am writing to inform you that **Yurtos Pure Ecologic Sapropel Fertilizer** has been verified and is permitted for use within Soil Association organic standards for producers as a fertiliser under standard 4.8.4.

A certified organic farmer may need to keep records to demonstrate a need to use the product.

Please note that this letter does not represent any form of Soil Association approval or endorsement, its only function is to detail the status of a product within organic standards and the nature of its uses. This letter cannot therefore be used as evidence of organic certification. The product cannot be sold or marketed with any reference to Soil Association approval or the Soil Association symbol.

This verification is subject to periodic reviews so please inform us of any changes to the product specification or suppliers. Please note that if this is not provided, or the changes are not approved, the formal verification of this product will be withdrawn.

If you have any further questions, please contact me on 0117 314 5136 or thartley@soilassociation.org, quoting your reference number above.

Yours sincerely,

Tom Hartley
Senior Certification Officer
